Sharp Advance In Lead and Copper Quotations.

### MINING MEN REJOICING

INDICATIVE OF INCREASED PROSPERITY FOR THE WEST.

The Mines of Bingham-The World Enriched By the Treasure Vaults of Markham Gulch-The Dubuque Examined - Encouraging Report Made-Silver City Consolidated.

There was general rejoicing among mining men in this city yesterday over the fact that lend and casting copper had made such marked advances in their quotations, the former touching 34,10 and the latter 14% cents, being the highest figures reached by these

the highest figures reached by these metals for many years.

This advance, it maintained, according to a well-known mining operator, means much for the industry in Utah as well as throughout the west, and the activity in industrial pursuits, the increased demand for copper and the greater consumption of lead, means that almost every old and abandoned copper and lead producer in this intermountain will be resource-ted and worked and that the output of these metals will be materially increased, thereby insuring a season of prosperity and progression for the country.

As is well known, there are many mining camps in Utah famed for their mines of silver, lead and copper, which have been almost abandoned during the last few years because of the decline in the quotation of these metals, but now, The Herald is informed, there is reason to believe that many of these old producers will be worked again and that the output of ore anning the less of the beautier of the decline in the quotation of these metals, but now, The Herald is informed, there is reason to believe that many of these old producers will be worked again and that the output of ore anning the some

## THE MINES OF BINGHAM.

The World Enriched From the Treasure Vaults of Markham Guich.

The attention of heavy mining men and enterprising investors is being more and more turned to the wondermineracization of the old camp of Singhem and the splendid disclosures made in the past and now being re-ported in the wealth producers of this section adds to the assurance arready given that within the next few mouths this locality will doubtless be the scene

this locality will doubtless be the scene of impressed activity and progress.

For many years Bingham has been noted for its heavy output of the precious inetals, among the noted producers of the camp being the Old Jordan and Galena, the Nugars, the Spanish, the Old Telegraph, the Winnermucca, the Dalton & Lark, with its group of big mines, the Stewarts, the Petro and a number of other bonanga propositions, all of which can safely boast of enriching the world to the extent of thousands of dollars, the aggregate amounting to several milthe extent of thousands of dollars, the aggregate amounting to several millions, while there are legions of smaller producers and also heavy ones not enumerated in the above list, the output of which, added to the sum total, if definitely known, would make a record of which any camp could well feel proud. The discovery of enermous deposits of copper ore in the mines of Bingham have almost doubled the present as well as the prospective value of the camp, and now that copper is the rare it would seem as if "Dame Nature," striving to do her best for her offspons, was coloring every lode and ledge in

vas coloring every lode and ledge in he mines of the district with this popthe mines of the district with this popular commodity, as, where the presence of copper was not even suspected before, it is now being found in paying quantities, and discoveries of copper are being almost daily reported from all over the district, among the localities in which finds of this nature are

this name, which is the commercial entrepot of the district.

At the very mouth of Markham, almost, is the Red Whig mine, how a regular producer of the preclous metals in which copper plays no unimportant part. Adjoining is the Julia Desn, which is reported to be one of the richest producers in the district, and it is stated that copper also enters into the metallic values of this bocanna. Further up the gulch is the Monteguna, from whose treasure vullas heavy and regular shipments of neary lead ore, combined with copper, have been made for a number of years and are now being made, willle on the other side of the gulch from this bonanca proposition is the Liberal, a property of more than ordinary merit, and up and down the gulch, from its mouth to its head, there is a perfect network of veins and ledges, on which are located many properties of merit are located many properties of meri and value, some of which have bee worked to such an extent as to defor mine the fact that with further exploit ation quite a number of producing an paying mines can be added to the num ber of wealth producers of that local

Other portions of the camp are als strictly "in the swim," and it is state that this senson's work will witnes now only the outcrop and the neglect ledge stand as sentinels over splend deposits of the precious metals.

# HEAVY BREAK IN STOCKS

Prime Securities Go to Pieces All the Way Down the Line.

The mining share market was badly demoralized yesterday, and there was a heavy break in leading securities at along down the line, the panic being s general that there was hardly a stock

general that there was hardly a stock but suffered losses during vesterday's call, and yet there was no apparent cause for this general slump, which came as unexpected as a flash of lightning from a clear sky.

The transactions of the hour started out with a sale of Ajax at \$1.20. Daisy was strong in the holding, but fulled to touch the bidding quotation of the previous day. Daiy West lost heavily, although hot a dealer. Considerable trading was induiged in by Four Aces, which exhibited a fair degree of strangth, considering the break in other ing was indulged in by Four Aces, which exhibited a fair degree of strength, considering the break in other prime securities. Mammoth was among the few to chronicle gains, Mercur dropping below the 26 mark, but afterwards railied and sold between this figure and \$6.10. Lower Mammoth sustained heavy losses, and closed weak at \$1.18 bid and \$1.18 maked. Northern Light hovering around \$3 cents, with but few buyers on the floor. Sacramente also lest ground, while Star Comments also lest ground, while Star Comments also lest ground, while Star Comments.

the unlisted stocks an upward In the undeted stocks an upward tendency was noticeable in Choeride Point, and sales in this stock were posted at an advance. Dexter was weaker, and chauged hands below the selling figure of the previous day, Eagle & Blue Bell mulnitaining its own above the 22 mark with difficulty. Frisco withstood the bear attack, Golden Eagle and Homestake heing firm and pile to record slight gains. Hercules continued its downward course, and Joe Howers did not excape from the universal depression. Joe Bowers Extension Flowers did not excape from the universal depression. Joe Bowers Extension being among the few which were strong at the curb quotation of the day before. Omaha changed hands at 46 cents South Swanssa being a dealer at a point or two below regular quotations.

Tetro being in good demand and a stock brokers, 208-209 Atlas block.

SILVER CITY CONSOLIDATED. Several Mining Companies Spring

buque group of claims in Oak Brush canyon, in Toocle county, has submitted a most encouraging report to E. W. Duncan of the National Bank of the Republic, who is president of the Dubuque Gold Mining company.

In his report Mr. Salomon states that the property of the company is admirably located, and that the vein is a counted between siste and time, while

contact between slate and lime, while the croppings are very strong and reg-ular, giving assurance of a permanent deposit of mineral, which, in its general characteristics, resemble the ores of Mercur, being oxidized and carrying Mercur, being oxidized and carrying good gold values, the ore being susceptible to treatment by the cyanide process of reduction, the mineralization being extensive, as the croppings show a width of from 200 to 300 feet between walls, Mr. Salomon being of the opinion that as depth is attained in the development of the property and crosscuts are run it will be found that the "whole ridge" will prove to be a mountain of ore.

quotation. Four Aces was also strong and was a dealer at 61½ cents. Joe Bowers was in earnest demand at 22½ cents and Joe Bowers Extension at prices ranging from 14 to 14½ cents. Lower Mammoth was a dealer at \$1.20 and South Swares at 120. and South Swansea at \$1.20; Star Consolidated being on the up-grade at figures above \$1.40. Golden Engle sold at 9 cents and Mercur at \$6, Boston & De Lamar changing bands at 3½ cents.

The Star Consolidated.

Encouraging reports continue to come in from the Star Consolidated near Mammoth, and it is stated that the cross-cut in the new workings of the mine where a fine body of high-grade copper ore has been exposed, has been driven across the deposit a distance of twelve or fifteen feet without disclosing the other wall and it is out disclosing the other wall and it is believed that the vein of this rich ore will be twenty or thirty feet in width, as in the level above, where this cop-per first made its appearance, the ledge is all of thirty-two feet across.

The new air compressor for the mine should be in operation within the next few days, when machine drills will be utilized to facilitate the working of the property, and it is learned that it is the intention to begin heavy shipments from the mine an early date. General Manager David Keith went out to the Star hast night for the pur-pose of inspecting this new copper

Silver and Lead. The silver and lead quotations yeserday were as follows:

Bar silver, 50% cents. Lead, brokers', \$4.10. Copper, casting, 14% cents. Ore and Bullion. The ore and bullion receipts yesterday were as follows:

T. R. Jones & Co., ores, \$6,700; butrmick & Co., bullion, \$2,700; res, \$26,450. Eamberger & McMillan, ores, 4,114.

Mining Notes and Personals, The Sampson of Bingham was in the Bamberger sells coal right.

J. A. Cunningham of the Mammeth returned list night from an examination of the new strike in this great wealth producer.

ducer.

How Theodore Bruback will leave this morning on a visit to the Sterling coal mines in Samete, and also to some of the leading properties in Tinite district.

The new exchange is straining every nerve to get ready for its opening call on Monday next. The call room is being fixed up in fine shape, and it is expected that the new organization will do a "land office" business as soon as it is in working order.

Several Mining Companies Spring
Into Existence.

Several more articles of incorporations were filed at the county clerks office yesterday.

The Silver City Consolidated Mining company has a capitalization of \$20,000 in 400,000 shares, each of a parvalue of 5 cents, and the stockholders are Joseph S. Free, Robert G. Smith, W. R. Wallace, J. J. Snell, and M. J. Cheesman, This concorn owns the Valley of the Swanzie claims in the Tinite district, Joseph S. Free, vice president; Robert G. Smith, secretary and treasurer.

The Navajo Mining & Milling company is incorporated by W. H. Simmons, Henry Cohn, E. D. R. Thompson, H. S. Joseph and Jacob Moritz, with a capital stock of \$40,000 in 400,000 shares of the par value of 10 cents each. The property consists of the Bine Bell group in the Tinite district, Officers: Henry Cohn, president; U. O. Corbis, A. L. Heaston, George Romney, Henry Dinwoodey, O. D. Romney, S. H. Lynch, Alex Campbell, R. T. Badger, George H. Wood, Alex Buchann, Jr., W. T. Edward and C. F. Wilcox are the incorporators of the Kremlin Mining company, which has been capitalized at \$100,000 in hards for the par value of 20 cents each. The par value of 20 ce

the Normandy.

It is learned that R. W. Sloan has decided to issue another edition of his "Handbook of Utah Mines." and that the publication is to be brought up to date in every respect. The former sublication was the best work of this character ever go the apr at Utah and was invaluable as a source of information regarding the mining industry of the state, the edition being speedily exhausted. The governing board of the stock exchange has given its endorsoment to Mr. Sloan in this new work and will give him the hearty support of the exchange in this enterprise.

The Ravages of Grip. That modern scourge, the Grip, poisons the air with its fatal germs, so that no home is safe from its ravages, but multitudes have found a sure pro-

on cheap stocks, thus pushing the poverished blood. It makes the blood market up again.

During the afternoon Northern Light sold all the way from 77½ up to 50 cents, the latter being the closing any allment caused or promoted by quotation. Four Aces was also strong impure blood, take Hood's Sarsaparilla

Hood's Pills are prompt and efficient, easy to take, easy to operate.
